

PRODUCT DATASHEET

AutroGuard[®] Removal/Replacement Tool WBJ-220

Features

- Easy removal or replacement of AutroGuard[®] Multicriteria Protectors
- Easy removal or replacement of dust covers
- Easy access to AutroGuard[®] protectors that are mounted to high ceilings

Description

The tool allows you to easily remove an AutroGuard[®] Protector from its base or mount it onto a base.

NOTE: the tool cannot be used with AutroGuard[®] Retro Spare Part Detector.

The tool is mounted on a telescopic or extension pole (ordered separately) which makes it easy to access protectors that are mounted to high ceilings.

A dust cover adapter (shown in the picture) can also be attached to the tool allowing you to easily remove a dust cover from a protector or attach a cover to a protector.

For further information on how to use the tool, refer to the "Quick Start Guide for WBJ-220". Detailed information on functional testing procedures is provided in the "Generic Instructions for Functional Testing- Autronica".

Both documents can be downloaded from <http://product.autronicafire.com>
